

**THE SOLUTION
TO A CHALLENGING
HAZMAT SHIPPING REQUIREMENT**

FRESHSTART™

We've taken our extensive knowledge of the consumer battery industry and created a product that addresses the unique needs of Military, Industrial, and Commercial applications in a complete, packaged solution.

Let's start something!

FRESHSTART™

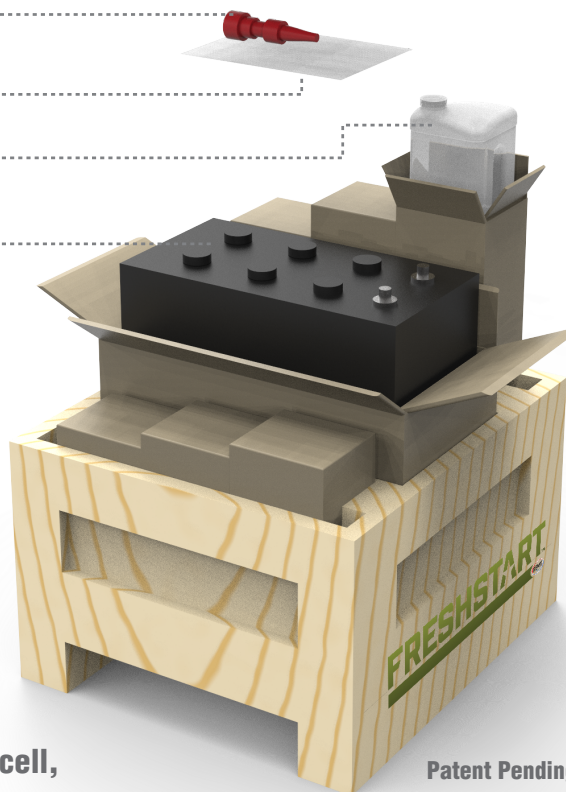

Funnel

Instruction Sheet and Documentation*

Electrolyte Bottles (x6)

Dry Charged Battery

*Packaging can include optional safety glasses, apron and disposable gloves.

Patent Pending

- ★ **Efficient Packaging**
reduced footprint allows more per pallet, freeing up storage space
- ★ **A Complete Solution**
everything needed to activate is included
- ★ **Foolproof**
individual electrolyte bottles mean exact electrolyte per cell, leading to proper activation, longer life, and better performance
- ★ **Less Mess**
Minimized spill risk due to individual electrolyte bottles and funnel fitment
- ★ **Freight Savings**
Reduced footprint helps reduce shipping costs
- ★ **Easier Handling**
Can be activated by a single worker
- ★ **Long Shelf Life**
Always ready to activate and go
- ★ **Recyclable**
electrolyte bottles are made from polypropylene and can be returned for recycling with the spent battery.
- ★ **Reverse Shippable**
packaging can be reused to return ship scrap battery and empty electrolyte bottles for proper recycling.
- ★ **Scalable**
Can be easily designed to fit various dry charged automotive and commercial battery sizes.
